

SPONSOR A TREE

Support Newton's Only Arboretum

The Accredited Arboretum at Newton Cemetery has thousands of trees and many of the noble specimens were growing when the cemetery was established in 1855. Part of the arboretum plan includes planting new trees on a regular basis in anticipation of the natural, ongoing decline of the oldest trees. Your support of the Sponsor a Tree program will help ensure future generations are able to appreciate the quiet grace mature trees provide.

A donation includes a personalized plaque that will remain in place at the tree for the duration of the selected sponsorship period, 10 or 30 years. It offers a way to honor or remember a family member or special person(s). Not only will your contribution help preserve a significant resource in the community of Newton, it will be dedicating a tree as a living tribute.

- o A limited number of recently planted trees are available for sponsorship each year. The species and location is determined by the cemetery horticultural plan.
- o The sponsor will have the opportunity to talk with or meet Newton Cemetery staff about the selection.
- o There are no additional costs. The tree will be cared for by Newton Cemetery.
- o Sponsorships may be renewed at the end of the sponsorship period.
- o The program provides an elevated level of commitment specific to supporting the preservation of a diverse, multi-generational tree canopy for years to come.
